STEVE IVY NUMISMATIC AUCTIONS INC.

Dear Customer:

Welcome to the A.N.A. Building Fund Sale. There is a special significance to this year's December auction because many of our consignors are donating a portion of their proceeds to the A.N.A. building fund.

This sale is as rich with coins as numismatics is varied. The copper section has an outstanding selection of both large and small cents highlighted by numerous red Large Cents, proof examples of the 1856 Flying Eagle and 1877 Indian Cents, and a mint state 1914-D. The Two Cent offering is complete and is highlighted by a Proof 65 1873. All three types of Three Cent Silvers are represented including a dozen specimens that justify photographs in our catalog. Not to be outdone, the Three Cent Nickels include a comprehensive selection including the rare and popular 1877 issue.

The Half Dime selection is our finest offering since last year's A.N.A. Sale. There are numerous prooflike and mint state specimens that await your scrutiny. The five cent pieces in the Shield, Liberty, and Buffalo categories abound with mint state and proof examples.

Although the Early Dimes contain many splendid examples, it is the Mercury Dimes that deserve special recognition. Highlights include a 1916-D that brought $5,750 in our 1980 A.N.A. Auction, two mint state 1921-D pieces, a semiprooflike 1926-S, and the finest 1942/1-D Dime that we have handled. In the Twenty Cent Pieces, both proof and gem mint state specimens are included.

A noteable array of quarters awaits the prospective bidder. Most of the scarce dates in the 1880's are represented as well as numerous quality examples of the Barber and Standing Liberty series.

The half dollar section includes a prooflike 1836 reeded edge, a gem 1874 with arrows, and a wide selection of Barber material. However, it is the Walking Liberty series that garners the most attention. Replete with rarities, a covey of superior specimens between 1916 and 1933-S awaits your attention. This is our finest offering of this series in over a year.

The silver dollar section contains no less than three high grade Flowing Hair Dollars, one of which is AU. The Seated, Morgan, Peace and Trade Dollar sections are stocked with mint state and proof examples. Of particular note are a gem prooflike 1889-CC Morgan as well as an 1892-S Dollar that is certainly among the finest known, an outstanding 1897-O, and an affordable example of the king of the series: a circulated 1895 proof.

The Commemorative Gold and Silver sections offer a past look at our country's history as exemplified by our nation's coinage.

The gold section of our A.N.A. Building Fund Sale contains one of the most historic and rare of all U.S. coins: the 1854-O Double Eagle. The coin last sold for $45,000 in 1979. While not everyone is able to afford this rarity, the gold section does offer a wide variety of material suitable for all pocketbooks including these interesting examples: an 1801 Eagle in EF/AU 48, and several $3.00 Gold Pieces including two that are MS 65.

To attend an important auction in person is a pleasure that too few bidders ever experience. If attendance in person is not possible, consider availing yourself of CompuBid. Many of our long term bidders have found this feature to be most helpful. If you are a first time bidder, make sure you read the section "Bidding in an Unreserved Auction" and the "Terms and Conditions of Sale."

Our next auction will be March 19-20, 1982. If you are thinking of consigning material to that sale, please contact either Mark Feld or myself.

Sincerely,

Bob Merrill
Director

# Terms and Conditions of Sale

1. This is a public auction and mail bid sale held by licensed and bonded auctioneers. All lots are sold to the highest bidder without reserve.
2. The highest bidder acknowledged by the auctioneer shall be the buyer. In the event of any dispute between bidders, the auctioneer may at his sole discretion immediately put the lot up for sale again. The auctioneer's decision shall be final and binding upon all bidders.
3. A premium equal to 10% of the successful bid price will be added to each invoice and is payable by the buyer as part of the total purchase price.
4. All bids are to be per lot as numbered in this catalog and no lots will be broken. Bids accepted in whole dollar amounts only.
5. All sales are strictly for cash in U.S. funds (no credit cards accepted) and are due and payable immediately upon receipt of the auction invoice and/or the coins. Lots delivered in the state of Texas are subject to all applicable state and local tax, unless appropriate permits are on file with us. Shipping, handling, and insurance charges will be added to invoices for lots delivered by mail. Overseas buyers must furnish their own insurance during shipment.
6. If the coin purchase invoice(s) submitted by Steve Ivy Numismatic Auction, Inc. is not paid in full when due, the unpaid balance will bear interest at the highest rate permitted by law until paid, and that if Steve Ivy Numismatic Auctions, Inc. refers the invoice(s) to an attorney for collection, Bidder agrees to pay attorney's fees, court costs and other collection costs incurred by Steve Ivy Numismatic Auctions, Inc. The courts of Dallas County, Texas shall have exclusive jurisdiction and venue over any suit initiated by Steve Ivy Numismatic Auctions, Inc. to collect delinquent invoice(s), and that service of process by certified mail, return receipt requested, shall be sufficient to confer *in personam* jurisdiction over Bidder.
7. Mail bidders who have not previously established credit must furnish satisfactory references well in advance of the sale date, or send a deposit of 25% of their bids which is applicable to purchases. Any portion of such deposit not used will be promptly refunded after the sale.
8. All bidders who have mailing addresses outside the United States of America, the Territories, Canada or Mexico must deposit with the auctioneer 25% of the total amount bid in good U.S. funds. Any portion of such deposit not used will be promptly refunded after the sale. Also, persons who have APO or FPO box numbers must deposit 25%.
9. The auctioneer reserves the right to require payment in full before delivery of the merchandise. Bidder personally guarantees payment, and if a corporation, officer or principal in the corporation agrees to personally guarantee payment. Title remains with Steve Ivy Numismatic Auctions, Inc. until all invoices are paid in full. It is the responsibility of the buyer to provide adequate insurance coverage for the coins once they are in his possession. Risk of loss shall be borne by the buyer following shipment of the coins.
10. Steve Ivy Numismatic Auctions, Inc. reserves the right to refuse to honor any bid which, in their opinion, is not submitted in good faith, or, as the case dictates, is not supported by satisfactory references, as they in their sole discretion shall determine. In the event a successful bidder fails to pay the charges due, the auctioneer reserves the right to resell the merchandise and the bidder agrees to pay for the reasonable cost of such a sale, and also to pay any difference between the resale price and the winning price of his previously successful bid.
11. No buy or unlimited bids accepted. Mail bidders will be awarded lots at a 5-10% advance over the second highest bid. (See explanation of Bidding in an Unreserved Auction.) No commission is charged for executing mail bids. Although consignors may bid in the sale, on their own or any of the other lots, there exist no special commission arrangements with consignors which place them as bidders in a preferential position relative to other bidders. Full commission will be charged the consignor on each lot.
12. The auctioneer cannot be responsible for your errors in bidding, so check your bid sheet carefully. When identical mail bids are submitted, preference is given to the first received.
13. Estimates will be given upon request. Estimates regarding the value of the Auction Catalogs and Reference Works represent the cataloger's professional opinion as to the value of the lot. It is recommended that bidders approach or exceed the estimates in determining successful bids.
14. Bids received from persons under 18 years of age will not be accepted.
15. All coins are guaranteed genuine. No lots may be returned without a written request by the successful bidder and the written approval of the auctioneer. In the unlikely event of returning a lot, the Auction Director must receive notification of bidder's intent within three (3) days of the bidder's receipt of lot. Any lot that is to be returned (for any reason other authenticity) must be received in our offices within 30 days from the date of sale. After that 30 day period, no lots may be returned for reasons other than authenticity. Questions regarding the minting of a coin as a proof or business strike relate to the method of manufacture and not to authenticity. Lots returned must be housed intact in the original holder. No lots purchased by floor bidders may be returned (including those bidders acting as agents for others). Late remittance for purchases may be considered just cause to revoke all return privileges.
16. The descriptions provided in this catalog are intended solely for the use of those bidders who do not have the opportunity to view the lots prior to bidding. All bidders who have inspected the lots prior to the auction will not be granted any return privileges, except for reasons of authenticity. It is presumed that all floor bidders have inspected the lots prior to bidding. Therefore, lots purchased by floor bidders are sold "as is" and may not be returned. Floor bidders include those bidders acting as agents for others.

# Bidding In An Unreserved Auction

In an unreserved auction, there are no hold or reserve bids on any lots. Each lot is sold to the highest bidder

In bidding by mail, it is possible to purchase a coin at a price less than your maximum bid The following is an explanation of the mail bid procedures followed by this company:

Bids are recorded as they are received At the close of mail bidding, the highest and second highest bids are transferred to the bid book.

On the floor of the auction, bidding is opened at 5 to 10% above the second highest mail bid. This bid is submitted by our company acting on behalf of the highest mail bidder. If the auctioneer recognizes no other bids from the floor, the highest mail bidder is awarded the lot at the opening bid If bidding proceeds from the floor, the company, acting as the mail bidder's agent, registers bids in 5 to 10% increments over the previous bid. This process is continued until the mail bidder is awarded the lot, or the next bid is higher than the mail bidder's maximum bid.

An example of this procedure is set forth under these conditions:

On lot 25, highest mail bidder submits a bid of $100, second highest mail bid is at $50. In this case, bidding on the floor starts at $55, and is bid by our company on behalf of the highest mail bidder. If no other bids are submitted by the floor, the highest mail bidder, who bid $100, has purchased the lot for $55. If other bids come from the floor, we bid for the highest mail bidder in 5—10% increments, as set by the auctioneer, until we reach the mail bidder's maximum bid of $100. Since bidding has passed the mail bidder's maximum, we take no other action, and the bidding continues on the floor until the final purchaser has been recognized by the auctioneer

Using this procedure, the mail bidder retains many of the advantages of the floor bidder

As outlined above, it is clear to see that coins can be purchased at a price less than the maximum mail bid This method of bidding for mail bidders is followed in this and all of our auctions.

A 10% buyer's premium will be added to all invoices.

# Quantitative Grading

The coins in the sale are all graded in accordance with the standards established in the American Numismatic Association Grading Guide.

The quantitative grading system is utilized in describing and grading all coins in this catalog. The quantitative grade will be used in conjunction with the traditional letter grade in order to best describe the condition of the coin.

# CompuBid gives you more "on-the-scene" bidding clout than you ever had before.

CompuBid is a people-to-people innovation that is, by far, the most advanced and helpful method of mail bidding available in the rare coin marketplace. No other auction company has anything that even compares with its simple sophistication and direct benefits to you.

**It increases your chances of success.**

CompuBid increases your chances of success over our standard mail bidding system and other conventional mail bidding systems two ways: it increases your chances of bidding on more coins; it increases your chances of buying more of the coins you want.

**It puts you where the action is.**

The action is at the auction. And CompuBid puts you there. It gives you almost all the advantages of the people attending the auction. In fact, CompuBid gives you so much flexibility, it's as if you were attending the auction in person.

**It maximizes your bidding dollars.**

CompuBid enables you to bid on as many coins as you like, yet limit your total purchases to a specific amount. For example, you could bid on $25,000 worth of coins, yet limit your total purchases to $5,000. In this example, although you get the opportunity to bid on several coins that interest you, it is still possible to stay within your buying limits. This way, knowing that you have limited your bidding dollars to a specific amount, you can bid with more confidence and flexibility than ever before.

**It evens the odds for you.**

CompuBid equalizes your chances of bidding successfully against the bidders at the auction on the coins you want to buy. For example, assume you want to buy either a Seated Dime for $500 or a Seated Quarter for $950. You would bid on both coins in those amounts and place your bidding limit at $950. If you bought the Seated Dime for $500, your bidding limit would be reduced to $450 ($950 -$500 = $450), which would be your new bid on the Seated Quarter. However, if you did not buy the dime, then your bid of $950 on the quarter would be accepted.

In another example, suppose you wanted to buy one Gem BU Morgan for $500. Assume there are three similar quality Morgan Dollars in the sale, all with the same date and grade. You would bid $500 on all three and limit your purchase to $500. You would buy the first one to sell for $500 (or below) and the other bids would be cancelled.

**It's a tested and proven success.**

In more than four years of use, CompuBid has proven to be the most effective and useful auction mail bidding technique available. No other auction company has the advancements in mail bidding technology and documentation necessary to offer a service as important and historically significant as CompuBid. In fact, CompuBid is so precise that Steve Ivy Numismatic Auctions, Inc., unconditionally guarantees that you, the bidder, will not be liable for any purchase over your specified limit.

# Mail bidding at our auctions saves you time and money.

For the cost of a postage stamp instead of the cost of a round-trip airplane ticket, you can bid on any coin or lot at our auctions from the comfort and convenience of your own home. Mail bidding is challenging, rewarding and exciting!

Plus, you can buy the coins you want, fast and easy, saving you time and money. For all these reasons and more, we believe bidding at auction by mail is one of the most outstanding privileges of modern numismatics. We think so much of this highly advantageous service that we've designed a total mail bidding program designed to give you more "on-the-scene" effectiveness than you've ever had before.

**It's easy to Mail Bid at our auctions.**

It's as easy as 1, 2, 3:

1. Browse through our full-color auction catalog and select the lot or lots you'd like to buy.
2. Research the going market value of each lot by checking price lists, price trends and other available data.
3. Based on this research and your desire to own the lot, determine your maximum bid.
4. Add your bids to see if the total is within your budget. If not, consider using CompuBid which is also explained in this catalog.
5. Enter your bid on the appropriate bid sheet and mail it in our special postage-paid envelope.
6. If you need assistance in determining fair coin prices or have any questions, call us toll free at 1-800-527-9250, and we'll be happy to help.

**You can buy the coins you want at less than your top bid. Here's how it works.**

Mail bidding at our auctions is just like bidding from the floor. On every lot at auction, we represent the highest mail bidder. For example, if you had bid $200 and the next highest bid was $150, we would place an initial bid for you of $160 -- an amount 5-10 percent greater than the second highest bid. If no floor bidders were to raise the bid, the lot would be yours for $160. If the bid was raised, we would continue to bid on your behalf up to your maximum bid of $200. Thus, you receive all the benefits of bidding from the floor without having to be there!

**You get first-day results.**

On the second day after each of our auctions, all unsuccessful mail bidders are notified. By the third day, all invoices are mailed out to the successful mail bidders.

**If you haven't tried mail bidding at our auctions, try it now!**

Bidding by mail in our national auctions is fun, fast, simply and rewarding. It gives you the opportunity to bid on a superlative collection of rare coins, including many of the coins you've been wanting most, at the price you want to pay.

# Follow these steps to get your coins at your prices.

You'll find floor bidding at one of our national rare coin auctions to be rewarding, easy and fun. You have the opportunity to buy the coins you've been wanting – at the prices you want to pay. Plus, you have the advantage of naming your top offer. And, it's likely that you will get the coins you want for less than your top bid.

Just follow this step-by-step guide for bidding from the floor and see if you don't agree.

1. Send for the sale catalog and first read the "Terms and Conditions of Sale," the "Quantitative Grading" and the "Bidding in an Unreserved Auction" section.

2. Keeping in mind your areas of numismatic interests, review the catalog for material to fit your collection. Place a checkmark next to the lot numbers containing the coins you want for your collection.

3. You might find several coins that you want and you should be prepared to bid on all of them with the hope of acquiring as many as you can within your budget limitations. Mark each of these lot numbers, indicating the amount you wish to bid on each, and assign a priority to each lot. For instance, if one lot is more attractive to you than other similar lots, give it a priority #1, and so on.

4. Remember, the sale is unreserved. This means there are no hold or reserve bids on any lots; each lot is sold to the highest bidder.

5. If you wish to set a maximum spending limit, make a prominent note on your catalog or separate worksheet.

6. Allow ample time for lot viewing prior to the sale. Lot viewing times will be announced prior to the auction, and it is recommended that you take advantage of this opportunity to view the material that interests you.

7. When you enter the lot viewing area, you will be asked to fill out a bidder registration form. Be prepared to furnish basic information such as name, address and telephone number, plus bank of numismatic references, and sales tax number if applicable.

8. When you complete the registration form, you will be issued a bidder card with your bidder number on it. Keep this card for use during the auction sessions.

9. Personnel at the viewing tables will ask you to fill out a simple sheet listing the lots you wish to see. This form is to facilitate lot viewing and to insure that you get to view all of the material of interest to you.

10. While viewing the lots, you might wish to alter your previous "want" list or to modify the bids you would place for these items. Writing material will be provided.

11. If you have not registered in the lot viewing area, you may register in the auction room during the sessions.

12. Arrive at the auction room in plenty of time to find a seating area to your liking. Relax and make yourself comfortable. Refreshments and snacks will be provided.

13. Follow the auction closely and be prepared when the lots you want are offered to the floor. The auctioneer will open the lot at one raise over the second highest mail bid. Bidding increments are in 5-10 percent raises, at the auctioneer's discretion. For example, suppose your maximum bid for a coin is $125, and the auctioneer received mail bids at $75 and $95. The auctioneer will open with $80 on behalf of the $95 mail bidder. The auctioneer will continue bidding for the high mail bidder until his $95 is exhausted and the floor takes over. You possibly could get the coin for $100 – $25 less than your maximum bid for the lot if there is no other floor competition.

14. You may pick up and pay for your lots in the lot viewing area during the time period in which lot pick up is open. If you prefer, you will be invoiced for your lots after the sale. They will be forwarded by Registered Mail upon receipt of your funds.

15. If you don't buy anything, don't worry. Enjoy the auction. Watch the auctioneer and the bidders. It's great entertainment. Steve Ivy Numismatic Auctions, Inc. conducts five national rare coin auctions each year. Therefore, you will have other opportunities to obtain the coins you want at the prices you want to pay. Study and review prices realized to help you prepare for better success at future sales.

In addition, our extensive advertising and publicity efforts keep you aware of upcoming sales and highlights of major lots.

# Reviewing past sales fun and educational.

One of the best educational tools employed by today's numismatists is monitoring current auctions. By reviewing lots offered in auction catalogs and their respective prices realized, a collector can not only estimate the value of his current collection and the value of coins he wants, he also can spot trends in the market.

Many collectors interested in historical values and past trends carry their research one step further by reviewing results of auctions conducted years, even decades, ago. For those of you who enjoy this endeavor, we offer you a concise look at the Anderson Dupont Sale, conducted by Stacks' in September and November of 1954.

The sale is best known for the collection of Large Cents it contained. And well it should be! On the September 24 and 25 sessions of the sale, a total of 1,028 Large Cents were sold. The first year of issue alone was represented by six Chain Cents, thirteen Wreath Cents, and five Liberty Cap Cents.

Some of the more important coins included: lot #7, one of the finest Sheldon 5 1793 Wreath Cents at $1,200; lot #22, a mint state 1793 Liberty Cap Cent at $1,500; lot #128, a mint state 1796 at $600 and lot #496, a mint state 1808 coin at $275. In the same sale, proof Large Cents (which were very well represented) brought between $70 and $375 each while uncirculated specimens of the same dates generally brought from between $7 and $30 each.

As impressive as the selection of Large Cents was, the sale was by no means lacking in other noteworthy coins. The 1796 "pole" and 1796 "no pole" Half Cents brought $2,300 and $3,000 respectively. The former piece reappeared in a 1975 sale at the *somewhat* higher price of $20,000 and would be worth still more than that today. Other rarities included an 1802 Half Dime in EF at a seemingly modest price tag of $1,025, a BU 1918/17-S Quarter at $310, an 1870-S Seated Dollar at $4,000 (a coin that would sell for approximately ten times that amount today) and an 1884 proof Trade Dollar for $2,500, a coin that is probably worth twenty times that amount in today's market.

Clearly, the Anderson Dupont Sale was more than just a group of oversize Pennies, it was a sale the quality and scope of which we see only on very rare occasions.

# The Luxurious Fairmont Hotel

If ever a hotel was built in this state that personified the Texas way of living — luxurious, expansive, and elegant — it is The Fairmont in Dallas. The striking twin towers of The Fairmont rise above the Dallas skyline signifying the presence of Texas' finest hotel, and certainly one of the finest in the nation.

Once in your room, you will immediately note the floor to ceiling glass wall which offers a breathtaking view of the Dallas skyline. Comfort and convenience are the key words at the Fairmont. Each room is appointed with these extra touches: 2 pillows — I soft, I firm — on each bed; superb percale sheets; Irish linen hand towels; a personal alarm clock; radio and background music; an electric shoe buffer; color TV (of course); a phone in the bath; a walk-in closet; finger-tip temperature tuning; evening maid service.

Although you may stay only a few days, it might take weeks to enjoy the various dishes of The Fairmont's dining rooms. The Brasserie, with its French sidewalk cafe setting, is a coffee shop like you've never seen before. This restaurant offers a lavish breakfast, a pleasing luncheon, and a superb dinner. But for that special evening, one that deserves only the best, a meal must be enjoyed at Dallas' most elegant dining spot, The Fairmont's Pyramid Club. With a chandelier that covers the entire ceiling and suede covered walls, the luxury of the decor is surpassed only by the excellence of the cuisine. This is continental dining at its best, complimented by one of the most extensive, extraordinary wine cellars in the Southwest. It's an experience you simply should not miss.

### COLONIALS

1 1652 Pine Tree Shilling. GOOD (4) Small planchet. ANACS #E-6562-D. Bold date, denomination and pine tree, although the center Roman numeral has been skillfully strengthened. The planchet is only slightly clipped. A presentable and affordable example of this historic issue.

### HALF CENTS

2 1793 EXTREMELY FINE (45) Well struck on an outstanding planchet. The mahogany and tan surfaces are spotless and vibrant. The denticles are complete and distinct on each side. A small patch of roughness underlines the "F" of "HALF" on the reverse, and is mentioned solely for the sake of future identification. Liberty's headband is sharply outlined. In this magnificent state of preservation, this classic coin will undoubtedly attract earnest interest from serious students of United States numismatics. (see color photo)

3 1795 VERY FINE (25) G-5, plain edge, no pole, dark color and somewhat porous.

4 1797 VERY FINE (20) A planchet flaw extends from the top of Ms. Liberty's cap to the top of her forehead. Chocolate brown color. Interesting "one above one" variety.

5 1802 2 Over 0 FINE (15) Gilbert 1, Cohen 2. New reverse. Formerly Lot #19 from Superior's November 76 sale described as "Very slightly later die state, the chips between 1B plain, and there are very faint traces here and there of rust; no reverse cracks. Fine, matte dark green and dark steel. *Exceptionally well struck:* HALF CENT plain and strong, and this also shows more than half dentilated border on obverse, complete border on reverse with more detail than on many specimens of technically Very Fine grade. Some peripheral details on both sides are of Very Fine sharpness, but the surface does not qualify at the Very Fine level. Well enough struck to show the spine from right stem end to final A, described by no earlier commentators, but present on the earliest states. No cent undertype visible. Several ancient obverse nicks and abrasions, not disturbing the color." The coin brought $500 then and is worth more today.

6 1804 Spiked Chin VERY FINE (35) Popular variety.

7 1804 Spiked Chin EXTREMELY FINE/ALMOST UNCIRCULATED (48) Well struck with very nice color. Very difficult to locate in grades above Very Fine. Popular and in demand.

8 1804 Crosslet 4, With Stems ALMOST UNCIRCULATED (55) A very light scratch starts at Ms. Liberty's throat and traverses her hair. Well struck. Lovely tan color, with a few vestiges of mint red.

9 1806 Large 6 ALMOST UNCIRCULATED (50) Traces of faded mint red.

10 1828 ALMOST UNCIRCULATED (50) Thirteen Star obverse.

11 1833 MINT STATE (60) Dark brown with tinges of red. (see color photo)

12 1835 ALMOST UNCIRCULATED (53)

13 1855 MINT STATE (60) Mostly brown with some red showing on the reverse. Lot #208 from Kagin's 1977 ANA Sale.

14 1857 MINT STATE (63) Red and brown. A small planchet defect between stars eight and nine on the obverse, and another amidst the denticles at seven o'clock on the reverse. Lot #6 from our March, 1980, Matthews Sale. (see color photo)

15 1857 MINT STATE (65) Easily more red than brown. Well struck for this often weak issue. A spotless and attractive representative of the last date of this obsolete denomination. (see color photo)

### LARGE CENTS

16 1793 Chain ABOUT GOOD (3) Variety with "AMERI." reverse. Stronger on the reverse (as is almost always the case with these coins) with full lettering. Legible date. A presentable example of this popular coin.

17 1793 Chain ABOUT GOOD (3) Bold chain; faint date. Some slight roughness upon the light brown surfaces.

18 1793 Wreath GOOD (6) Vine and bars edge. A nick on Liberty's forehead; otherwise, a normal amount of surface roughness for a Wreath Cent of this grade. The date is weak but, at an angle, completely visible.

19 1794 VERY FINE (30) A minor rim ding at two o'clock on the obverse. The serenely smooth surfaces are of an attractive medium brown color. S-65.

20 1794 EXTREMELY FINE (40) Dark, glossy surfaces which are quite attractive despite some unobtrusive obverse roughness. S-31.

21 1795 Lettered Edge. FINE (12) Dark and porous.

22 1804 GOOD (4) A dozen or so old, faint lacerations on each side. A good space filler.

23 1804 Restrike MINT STATE (60) Struck in the very late stages of the possibly pilfered dies, with the obverse rust and reverse weakness especially pronounced.

24 1806 EXTREMELY FINE (45) The color and hair detail are suggestive of an AU grade, but lightly kegmarked surfaces prohibit placement at that level.

25 1812 VERY FINE (20) A pleasing type coin.

26 1814 VERY FINE (30) Attractive despite the not unusual porosity.

27 1818 ALMOST UNCIRCULATED (58) Virtually mint state. Some mint red lingers on the reverse.

28 1820 MINT STATE (60) Light olive toning.

29 1823 Restrike. MINT STATE (60) The scarce variety without the massive die breaks which are usually found on the obverse. Listed (at $275.00) and briefly explained on p. 74 of the Guide Book.

30 1838 ALMOST UNCIRCULATED (58) Brown surfaces.

31 1849 MINT STATE (65) The razor sharp strike and broad, squared rims are reminiscent of a proof. The somewhat reflective surfaces are unspoiled and quite lustrous, with a patch of mint red below and surrounding the wreath bow on the reverse. (see color photo)

32 1850 MINT STATE (63) Light brown, interestingly prooflike surfaces. (see color photo)

33 1850 MINT STATE (65) Intense mint red predominates on the obverse, and blends nicely with a natural brown tone on the reverse. Fully struck, with each star center visible and Liberty's eyebrow completely raised. A premium example. (see color photo)

34 1854 MINT STATE (65) Extremely sharply struck. Excellent brown surfaces with original mint red surrounding the stars and devices. An outstanding copper. Lot #16 from our March '80 Matthews sale at $800. (see color photo)

## FLYING EAGLE CENTS

35 1856 PROOF (60) Lightly cleaned; scattered surface nicks. A laudable example of this key issue. (see color photo)

36 1857 EXTREMELY FINE (45).

37 1857 MINT STATE (60) Lot #467 from Kagin's 1977 ANA sale. Some surface smudging on the obverse.

38 1857 MINT STATE (60) An alluring, golden toned, semiprooflike example that unfortunately bears an obvious planchet lamination on and above the eagle's left wing. Fully struck. (see color photo)

## INDIAN CENTS

39 1859 MINT STATE (63) Scattered light contact marks upon semiprooflike surfaces. A tiny planchet flaw on the reverse rim at 5 o'clock.

40 1860 MINT STATE (60) Lustrous, with attractive color.

41 1863 PROOF (58) Slightly mishandled.

42 1863 PROOF (63) Artistic russet toning shades the unhairlined, reflective surfaces. This virtual gem should bring a winning bid approaching the four figure level. (see color photo)

43 1864 Copper Nickel. MINT STATE (60).

44 1864 Copper Nickel. MINT STATE (65) A lustrous and pleasing example. (see color photo)

45 1864 Bronze. MINT STATE (63) Almost fully red.

50 1867 PROOF (65) An alluring example of this semi-key issue. (see color photo)

51 1868 MINT STATE (60) Brown.

52 1873 PROOF (63) At first glance a gem, but minute marks detract slightly. (see color photo)

53 1876 PROOF (65) Enchanting color. (see color photo)

59 1881 PROOF (65) Attractive lilac toning. This cameo example is worthy of a generous bid.

60 1882 PROOF (65) Iridescent toning. (see color photo)

61 1883 MINT STATE (63) Minor reverse staining.

62 1883 PROOF (60) A bit too lackluster for a higher grading.

147 1856 MINT STATE (60) Slightly bent. (see color photo)

148 1858 ALMOST UNCIRCULATED (55).

160 1872 PROOF (60) Slight friction. (see color photo)

## THREE CENT PIECES (NICKEL)

161 1866 MINT STATE (65) Especially lustrous. (see color photo)

163 1877 PROOF (65) Some light toning. Sans hairlines or other injuries. Certain to attract many fair bids. (see color photo)

164 1879 MINT STATE (65) An overlookable planchet flaw above Liberty's hair. Otherwise superb.

165 1879 PROOF (63) (see color photo)

166 1881 PROOF (65) Nicely toned. Excellent for type purposes. (see color photo)

171 1883 PROOF (65) Streaked with attractive golden toning. (see color photo)

172 1885 MINT STATE (67) One of the most desirable of all "rarer as non-proof" issues of any denomination. This frosty gem possesses runaway potential. (see color photo)

173 1885 PROOF (63) (see color photo)

174 1886 MINT STATE (65) Purely frosty. (see color photo)

175 1886 PROOF (65) Exceedingly brilliant. (see color photo)

176 1886 PROOF (67) Superb! Nudges perfection. (see color photo)

179 1888 PROOF (58)

180 1888 PROOF (63) An arm's length gem. (see color photo)

## EARLY HALF DIMES

181 1795 ABOUT GOOD (3) Severely damaged, with a large solder spot and many scratches on the obverse. The date is bold.

182 1795 VERY GOOD (8) An old dig to the left of the eagle's head.

183 1795 VERY FINE (35) A very desirable type coin, despite the fact that a portion of the obverse has been lightly buffed, and Liberty's cheek bears a small scrape. (see color photo)

184 1796 GOOD (4) As pleasing and problem free as an Eighteenth Century coin of this grade could possibly be. A prize for the serious, yet budgeted, numismatist.

185 1800 VERY FINE (20) Interesting "LIBEKTY" variety, wherein the "R" is incomplete at the top, thus resembling a "K." Uncommon type.

186 1800 VERY FINE (35) Very sharp, with much claim to an extremely fine grade. A charming and scarce early type coin.

187 1800 ALMOST UNCIRCULATED (50) Phenomenally sharp, with intricate hair detail. The defect free surfaces exhibit considerable original luster. This type is not easily obtainable in superior condition and, in many respects, this specimen surpasses some examples which may technically grade a bit higher. Worthy of a bid in the five thousand dollar range. (see color photo)

188 1829 ALMOST UNCIRCULATED (50) A small dig between the third and fourth stars.

189 1829 ALMOST UNCIRCULATED (53) A light scratch extends from near the first star to Liberty's ear.

190 1829 MINT STATE (60) Prooflike surfaces show beneath toning of medium density. Sharply struck. (see color photo)

191 1831 ALMOST UNCIRCULATED (50)

192 1831 ALMOST UNCIRCULATED (58) Deep toning.

193 1832 ALMOST UNCIRCULATED (50)

194 1832 ALMOST UNCIRCULATED (55) Lustrous.

195 1832 MINT STATE (66) A fully struck example with delicate toning on each side. (see color photo)

196 1833 ALMOST UNCIRCULATED (53)

197 1833 ALMOST UNCIRCULATED (58)

198 1833 MINT STATE (63) Sharply struck; light golden toning. A faint die break vertically traverses the obverse portrait. (see color photo)

199 1834 MINT STATE (60) Brilliant, unusually deep prooflike surfaces. The obverse is a smidgen off-center. An intriguing piece. (see color photo)

200 1834 MINT STATE (63) Splendid light toning. Well struck and lustrous. (see color photo)

201 1835 MINT STATE (63) Brilliant, with serenely unperturbed surfaces. A lint mark begins above Liberty's shoulder clasp, winds through her hair curls and across the cap to a point near the eighth star. (see color photo)

## LIBERTY SEATED HALF DIMES

202 1837 No Stars EXTREMELY FINE (40)

*The color plate for Three Cent Pieces (Silver) – Shield Nickels is located on page 6*

## Liberty Seated Half Dimes (cont'd)

203 1837 No Stars ALMOST UNCIRCULATED (50) Vivid toning.

204 1837 No Stars MINT STATE (60) Fully struck. Somewhat lackluster in the left obverse field. Otherwise, a choice example of this genuinely scarce type. (see color photo)

205 1837 No Stars MINT STATE (65) Well struck with delicate toning. An almost invisible scratch above Liberty's right shoulder is the only discernible imperfection upon the impeccable surfaces. (see color photo)

206 1838 ALMOST UNCIRCULATED (55) Lightly cleaned.

207 1838 ALMOST UNCIRCULATED (58) An area of extra metal surrounds "ERICA" on the reverse.

208 1838 MINT STATE (65) An important type coin in this supreme state of preservation. The scrumptious toning, fullness of strike and lack of marks combine to create a tiny numismatic masterpiece. (see color photo)

209 1843 ALMOST UNCIRCULATED (58) Lustrous surfaces with mottled toning. A problem free, barely circulated coin.

210 1848 Medium Date MINT STATE (63)

211 1850 MINT STATE (65) Well struck, gleaming mint luster. A very appealing coin. Lot #180 from our November, 1878 Turner Sale. (see color photo)

212 1853 No Arrows MINT STATE (65) A splendid gem with multicolored natural toning. Fully struck. Rarer than the With Arrows type. Several auction records around $3,000. Most of the 160,000 mintage were melted due to their bullion value being greater than face value. Subsequent 1853 Half Dimes, as well as other denominations, were reduced in weight, and arrows were added around the date to indicate the change. Certain to be a popular lot. (see color photo)

213 1853 With Arrows MINT STATE (60) Dark, mottled toning. (see color photo)

214 1853 With Arrows MINT STATE (63) Sharp, lustrous and semiprooflike.

215 1853 With Arrows MINT STATE (67) Fully struck with radiant luster. Untoned and extremely attractive. A superb example of an "Arrows" half dime. (see color photo)

216 1854 MINT STATE (63) A lightly toned, virtual gem example. (see color photo)

217 1858 MINT STATE (65) Lot #251 from our Las Colinas Sale as "A satin-like example with very attractive toning on both sides. The pristine surfaces leave little to be desired. An outstanding stars obverse half dime." The coin realized $2,550 in fierce bidding. (see color photo)

218 1858 MINT STATE (65) Easily superb but for a tiny nick below Liberty's right shoulder. Attractive iridescent toning blankets wholly lustrous surfaces. (see color photo)

219 1858 MINT STATE (65) Another gem example of the challenging stars obverse type. This example is less toned than the previous two, but just as lustrous and desirable. Worthy of the finest collection. (see color photo)

220 1858 PROOF (60) Excellent initial eye appeal despite scattered hairlines. A landmark date in U.S. numismatic history, during which the Philadelphia mint began producing sets of proof coins for collectors on a regular basis. (see color photo)

221 1859 MINT STATE (65) A magnificent example of this overlooked only-year-of-type coin. Multiple pastel shades blend beautifully upon the irrepressibly lustrous surfaces. The strike leaves nothing to be desired. Destined to highlight an outstanding collection. (see color photo)

222 1860 PROOF (60) Brilliant, but lightly hairlined. (see color photo)

223 1860 PROOF (63) Opaque toning.

224 1861 MINT STATE (60) Light peripheral toning. More luster is required for a higher grade.

225 1861 MINT STATE (65) Stainy surfaces; well struck. (see color photo)

226 1862 MINT STATE (63) Evenly toned with russet, olive and yellow hues. Sharply struck. A few faint scrapes disturb the surface in the left obverse field, thus preventing an MS (65) rating.

227 1864 MINT STATE (65) Unquestionably one of the finest known business strikes of this extremely rare and eagerly sought issue. Fully struck save for the upper left portion of the wreath, the usual place for any strike shortcoming on coins of this type. The frosty surfaces do not exhibit a hint of any proof characteristics. Radiantly lustrous, with splendid peripheral toning surrounding brilliant centers. The rarity of the 1864 Half Dime as a non-proof has become legendary during the past decade. The Red Book's respect is evident; the 1864 is valued therein at over double the prices listed for 1865, '66 and '67 Half Dimes (rare issues in their own right) in mint state. An opportunity to acquire this classic in such amazing condition may not reoccur for years. (see color photo)

228 1865 MINT STATE (60) Rare as a business strike. Pleasing, satiny surfaces. Struck from lightly clashed dies. (see color photo)

229 1869-S MINT STATE (60)

230 1872-S Mintmark Below Bow ALMOST UNCIRCULATED (58)

231 1872-S Mintmark Above Bow MINT STATE (63) Even, golden toning. (see color photo)

232 1873 MINT STATE (60) Slight friction upon the semiprooflike fields. (see color photo)

233 1873 PROOF (63) Delicately toned. (see color photo)

## SHIELD NICKELS

234 1866 ALMOST UNCIRCULATED (50) Cleaned.

235 1866 MINT STATE (60) Typical, or a bit better, strike. Light toning. (see color photo)

236 1866 MINT STATE (63) Nice shield lines, although the right portions of both sides are somewhat weak.

237 1867 No Rays MINT STATE (60) Softly struck.

238 1867 With Rays MINT STATE (60) An edge cud covers about a half dozen denticles below the date.

239 1867 With Rays MINT STATE (65) A gem coin despite the fact that the shield lines are not full. Attractive light golden gray color. (see color photo)

240 1869 MINT STATE (63)

241 1869 PROOF (65) A totally objection-free specimen. (see color photo)

242 1870 PROOF (60) Mildew-like spotting and numerous hairlines on the reverse.

243 1871 PROOF (60) Inordinately bright due to light cleaning.

244 1873 PROOF (60) Scattered spots and hairlines.

245 1873 PROOF (60) The surfaces may have been coated with some type of adhesive. (see color photo)

246 1878 PROOF (65) Frosty and attractive. (see color photo)

247 1878 PROOF (67) Superb! (see color photo)

248 1881 PROOF (65) Scarce issue. (see color photo)

249 1882 MINT STATE (60) Some surface verdigris and a few contact marks detract.

250 1882 MINT STATE (63) Sharp and lustrous.

*The color plate for Three Cent Pieces (Silver) – Shield Nickels is located on page 6*

251 1882 MINT STATE (67) Fully struck and untoned. A superlative example of a Shield Nickel. (see color photo)

252 1882 PROOF (63) A few minor obverse spots.

253 1883 MINT STATE (63) A virtual gem. (see color photo)

254 1883 MINT STATE (65) Brilliant and fully struck. Excellent for type purposes. (see color photo)

255 1883 PROOF (63) (see color photo)

## LIBERTY NICKELS

256 1883 No Cents MINT STATE (65) Well struck.

257 1883 No Cents PROOF (60) A minor planchet lamination between stars 10 and 11. Some obverse roughness, and there are light hairlines on each side. Pleasant toning.

258 1883 With Cents PROOF (58) Rubbed on the high points.

259 1884 PROOF (63) A blush of lilac toning. (see color photo)

260 1885 MINT STATE (65) Sharp, with full stars and corn. No proof characteristics whatsoever. A beautiful way to complete a carefully assembled collection of this popular series. (see color photo)

261 1887 MINT STATE (65) Light green toning.

262 1888 MINT STATE (60) Golden toning.

263 1889 MINT STATE (65) Intricately detailed; lightly toned.(see color photo)

264 1891 MINT STATE (63)

265 1891 MINT STATE (65) Brilliant and relatively free of injury.

266 1892 MINT STATE (63) Even golden toning of medium density.

267 1892 PROOF (63) An arm's length gem. (see color photo)

268 1892 PROOF (65) Speckled toning.

269 1893 PROOF (63)

270 1896 PROOF (63) Hazy toning.

271 1897 MINT STATE (65) Well struck.

272 1897 MINT STATE (65) Fully struck. Some toning upon the lustrous surfaces.

274 1899 MINT STATE (63) Light golden toning.

275 1899 MINT STATE (63)

276 1899 PROOF (65) Pristine. (see color photo)

277 1900 MINT STATE (60)

278 1901 MINT STATE (65)

279 1901 PROOF (63) A pair of tiny slide marks on Liberty's cheek.

282 1903 MINT STATE (63)

283 1903 PROOF (63) Mottled toning.

284 1904 MINT STATE (65) Particularly brilliant.

285 1904 PROOF (63) A faint scratch from Liberty's chin to the first star.

286 1904 PROOF (63) Beautiful pastel toning. A wispy scratch above the Roman numeral on the reverse prevents a higher grading. (see color photo)

287 1905 PROOF (65) A splendid example with a hint of violet toning. (see color photo)

288 1906 MINT STATE (65) Highly lustrous.

289 1909 PROOF (63)

290 1910 MINT STATE (60) Minor reverse planchet lamination.

291 1911 MINT STATE (63) A solitary nick below Liberty's eye. Satiny surfaces.

297 1912 PROOF (67) Exquisite patina on both sides.

298 1912 PROOF (68) Deep mirror surfaces with gorgeous multicolored toning on each side. Just a few light spots from perfection. (see color photo)

## BUFFALO NICKELS

300 1913 Type One MINT STATE (65) Excellent color.

301 1913 Type One PROOF (63) ANACS E-9211-I. As a proof, a highly underrated type coin. (see color photo)

302 1913-D Type One MINT STATE (65) Well struck and wholly lustrous. The natural golden toning is deepest on the reverse. (see color photo)

303 1913-S Type One MINT STATE (63) Above average strike. (see color photo)

307 1914 PROOF (65) Only proofs can provide the detail and surfaces that coins of this series were meant to have. Historically, coins struck in this non-resilient metal have always exhibited an abundance of inadequacies - not so with this beautiful example. (see color photo)

317 1916-D MINT STATE (63) Not fully struck.

318 1916-D MINT STATE (67) Superb! Buffalos of this particular issue are by no means rare in mint state, but, in this lofty grade, a 1916-D is not easy to locate. This ideal, fully struck specimen may fetch a bid near the four figure level. (see color photo)

319 1916-S MINT STATE (63) Close to gem.

320 1916-S MINT STATE (67) Superb! Ditto the comments made earlier for the Denver issue of this year. Fully struck and very appealing. (see color photo)

321 1920 MINT STATE (65)

322 1920-D MINT STATE (63) Above average, albeit not full, strike. Olive toning throughout. (see color photo)

323 1923 MINT STATE (65) Brilliant.

324 1924 MINT STATE (65) Fully struck; attractive peripheral toning.

325 1924 MINT STATE (65)

326 1924-S MINT STATE (65) Characteristic semiprooflike surfaces. One minor reverse rim nick. The sharpest 1924-S we have ever offered, and certainly among the finest extant. Often the last addition to a gem collection of this challenging series. (see color photo)

327 1926 MINT STATE (65) Richly toned.

328 1926-D MINT STATE (60) Typical quality for this poorly produced issue. (see color photo)

329 1927 MINT STATE (67)

330 1928 MINT STATE (65)

331 1928 MINT STATE (65)

332 1928 MINT STATE (65)

333 1928 MINT STATE (65)

334 1928-D MINT STATE (65) Well struck.

335 1929-S MINT STATE (65) Light toning. (see color photo)

336 1930 MINT STATE (65) Fully struck and especially lustrous. Attractive reverse toning.

337 1931-S MINT STATE (65)

338 1931-S MINT STATE (65) Sharp.

339 1931-S MINT STATE (65) (see color photo)

340 1935-D MINT STATE (65) Sharply struck. (see color photo)

341 1937-D Three Legged FINE (12)

342 1937-D Three Legged EXTREMELY FINE (45) Popular error.

343 1937-D Three Legged MINT STATE (63) Lot #529 from our May Royce Samuels Sale as: "Virtually untoned and exhibits a full sharp strike. The reverse even appears to have a semiprooflike appearance. This piece is worthy of a premium bid." The price realized was $1,100. (see color photo)

344 1937-D Three Legged MINT STATE (65) Only two other specimens ever witnessed by this cataloger have fallen into the same elite category with this fabulous specimen presently offered. One must remember that all 1937-D Three Legged nickels were struck from very worn dies and, by their nature, usually lack the luster and "pizzazz" more common to other issues. A few exceptional pieces exist, however, and this is one of them. The strike, brilliance and overall appeal are, for all practical purposes unimprovable. Worthy of a record price. (see color photo)

## JEFFERSON NICKEL

345 1943/2 MINT STATE (65) A scarce and popular overdate with auction records in the $1,000 range.

## EARLY DIMES

346 1805 VERY GOOD (8)

347 1807 VERY GOOD (8) No problems.

348 1821 Large Date VERY FINE (20)

349 1825 ALMOST UNCIRCULATED (50) Almost imperceptibly bent.

350 1829 ALMOST UNCIRCULATED (58) Prooflike. Sharp and lustrous. (see color photo)

351 1833 MINT STATE (63) Sharp and brilliant. (see color photo)

352 1833 MINT STATE (63) Lot #533 from our Samuels Sale as "Medium golden toning. Well struck. Prooflike surfaces on obverse and reverse. Although a few hairlines are visible in the fields, this is still a highly desirable type coin." Price realized was $1,600. (see color photo)

353 1834 VERY FINE (30)

## LIBERTY SEATED DIMES

354 1838-O No Stars VERY FINE (25)

355 1840 ALMOST UNCIRCULATED (50) Cleaned.

356 1849-O VERY FINE (30)

357 1849-O EXTREMELY FINE (45) Extremely scarce. Unvalued in grades above EF 40 in the Red Book.

358 1853 With Arrows ALMOST UNCIRCULATED (50) Sharp and somewhat prooflike.

359 1853 With Arrows MINT STATE (65) A frosty jewel that is well struck and attractive in all respects. For an outstanding type set. Lot #279 from our Turner Sale. (see color photo)

360 1854 ALMOST UNCIRCULATED (50) A few shallow digs are obscured by deep toning.

361 1854 MINT STATE (60) Lustrous.

362 1854-O ALMOST UNCIRCULATED (50)

363 1856 Small Date ALMOST UNCIRCULATED (55)

364 1858 MINT STATE (60) Semiprooflike, striated surfaces. (see color photo)

365 1858 PROOF (60) Natural toning diminishes the adverse effect of faint hairlines. No lint marks. A rare type coin in proof. (see color photo)

366 1860-O FINE/VERY FINE (17) Several old, deep scratches on each side. Worth what a G-VG coin with no problems would be. This highly publicized rarity may attract considerable attention.

367 1867 MINT STATE (65) Exceedingly rare as a non-proof, much less frequently sen than other similarly valued dates in the '60's. The clash marks beneath the mottled toning should be viewed as a positive indication of the coin's business strike status, and in no way should detract from its value. An unusual opportunity for the astute numismatist. (see color photo)

368 1868 PROOF (63) A dazzling cameo with scant hairlines. (see color photo)

369 1873 No Arrows PROOF (55) Gray toning.

370 1873 No Arrows PROOF (65) A stunning example with lovely toning. Lot #399 from our April '78 Donovan Sale. (see color photo)

*The color plate for Shield Nickels – Liberty Seated Dimes is located on page 10*

371 1873 Arrows MINT STATE (60) Lustrous. (see color photo)

372 1873 Arrows PROOF (63) Russet toning upon lightly hairlined surfaces. Not quite fully struck. (see color photo)

373 1874 PROOF (60)

374 1875-CC Mintmark within Wreath MINT STATE (65) Light golden toning, with a spot of darker toning on the wreath. Popular Carson City issue. Lot #473 from our December 1980 Moore Sale at $600. (see color photo)

375 1879 PROOF (63) Deep, multicolored toning. (see color photo)

376 1880 PROOF (60) Chartreuse reverse toning. Sever rim imperfections.

377 1883 ALMOST UNCIRCULATED (50)

378 1886 MINT STATE (63) Attractively toned in shades of russet and blue. Nearly of gem quality. (see color photo)

379 1887 MINT STATE (63) Complete luster.

380 1887 MINT STATE (63) Peripheral toning. (see color photo)

381 1888-S MINT STATE (63) Brilliant.

382 1889 MINT STATE (67) Deeply lustrous with scattered original toning. Very attractive. (see color photo)

383 1890 MINT STATE (65) Lot #296 from our Turner Sale. (see color photo)

384 1890 MINT STATE (65) Unperturbed, satiny surfaces. (see color photo)

385 1890 PROOF (63) Some cameo contrast.

386 1891-O MINT STATE (67) Superb! Attractive color. (see color photo)

## BARBER DIMES

387 1892 MINT STATE (63) Well struck.

388 1893 MINT STATE (63) Obverse toning. A minor planchet clip at 5 o'clock on the obverse rim and the corresponding reverse position.

389 1893 MINT STATE (63) Lustrous surfaces with attractive golden obverse color.

390 1895 PROOF (63) Primarily violet toning of medium density. Scarce in any grade. (see color photo)

391 1897 MINT STATE (63) Fully struck and beautifully toned. An unfortunate scratch on Liberty's cheek prohibits a higher classification. (see color photo)

392 1900-S ALMOST UNCIRCULATED (50)

393 1902 PROOF (60) Brilliant and attractive despite light hairlines.

394 1904 PROOF (60) Choice were it not for a significant scratch beneath Liberty's eye. (see color photo)

395 1904 PROOF (63) Untoned. (see color photo)

396 1905 MINT STATE (60)

397 1906 MINT STATE (63) Lustrous.

398 1906 MINT STATE (63) Untoned, yet never dipped or cleaned. Well struck.

399 1906-D MINT STATE (60) Elaborate toning covers deeply proof-like surfaces. A pair of small digs on Liberty's cheek.

400 1906-S MINT STATE (65) Pristine. (see color photo)

401 1906-S MINT STATE (65) Beautifully toned. A scarce date which will probably sell for only a slight premium above a common issue's value. (see color photo)

402 1907 MINT STATE (60) A few unobtrusive scrapes.

403 1907 MINT STATE (63)

404 1908-D MINT STATE (65) A fully struck, entirely natural specimen that should please either the date or type collector. (see color photo)

405 1911 MINT STATE (60) Golden toning.

406 1911-S MINT STATE (63) Light hairlines, visible only at a certain angle, prevent gem status.

407 1912 MINT STATE (63)

408 1912 MINT STATE (65) Gorgeous obverse toning. This unspoiled specimen is suitable for the finest cabinet. (see color photo)

409 1912-S MINT STATE (60) Sharp and lustrous.

410 1913 MINT STATE (63) A gem's luster, but a few normal marks detract slightly.

411 1914-S MINT STATE (60) Sharply struck; semiprooflike surfaces.

412 1915 MINT STATE (63)

413 1916 MINT STATE (65) A pristine, razor sharp example. (see color photo)

## MERCURY DIMES

414 1916 MINT STATE (65) Full split bands.

415 1916 MINT STATE (65) Full split bands. Fully lustrous with pretty gold and green color.

416 1916-D MINT STATE (63) Full split bands. An iota of luster is all that prevents an MS (65) grade. Our conservative ranking and the eternal popularity of this key issue will likely assure a price near a full gem's value. (see color photo)

417 1916-D MINT STATE (65) Lot #1867 from our 1980 ANA Sale, described as: "Full split bands. Wholly lustrous and pleasing, with satin free surfaces virtually free of abrasions. A key member of a perpetually popular series." The coin realized $5,750. We are pleased to offer this piece again and anticipate that it will once more be the object of spirited bidding. (see color photo)

418 1916-S MINT STATE (65) Full split bands. The lower diagonal is complete but not raised.

419 1916-S MINT STATE (67) Superb! Virtually full split bands. (see color photo)

420 1917 MINT STATE (63) Full split bands. Brackish toning.

421 1917-D MINT STATE (67) Superb! Splendid mutlicolored toning. (see color photo)

422 1917-S MINT STATE (63) A nick on the central bands, which are split.

423 1917-S MINT STATE (67) Virtually full split bands. Also from our 1980 ANA Sale, lot #1867. (see color photo)

424 1918-D MINT STATE (65) (see color photo)

425 1921 MINT STATE (60) Full split bands. The details, especially on the obverse, are a bit blurry due to irregular metal flow, a characteristic not unusual for this key issue. Lot #1871 from our 1980 ANA Sale. (see color photo)

426 1921-D MINT STATE (60) Well struck, with practically full bands. Lightly cleaned. 1980 ANA Sale lot #1873. (see color photo)

*The color plate for Liberty Seated Dimes – Liberty Seated Quarters is located on page 11*

## Mercury Dimes (cont'd)

427 1921-D MINT STATE (65) Full split bands. The unimpaired surfaces are streaked with golden toning. A proud addition to any collection. (see color photo)

428 1923 MINT STATE (65) Full split bands.

429 1924 MINT STATE (67) Superb! Full split bands. The frosty surfaces are ringed with dark toning. A coin with great eye appeal.

430 1924-D MINT STATE (63) Full split bands. Dark golden toning.

431 1925 MINT STATE (65) Full split bands. Gold and olive toning.

432 1925-D MINT STATE (63) Full split bands, although the coin is slightly weak around the peripheries. The mintmark is unmistakable, but only about sixty percent complete. A light scratch on Liberty's eyebrow. Lot #1879 from the 1980 ANA Sale. (see color photo)

433 1925-S MINT STATE (60)

434 1925-S MINT STATE (65) The bands are ninety percent split. Exceedingly lustrous. Lot #1880 from the 1980 ANA Sale. (see color photo)

435 1926-D MINT STATE (63) Semiprooflike obverse. (see color photo)

436 1926-S MINT STATE (65) "Full split bands. Somewhat semiprooflike, highly lustrous surfaces. A rare opportunity to obtain this greatly respected Mercury." That description from lot #1884 of our 1980 ANA Sale. (see color photo)

437 1927 MINT STATE (65) Full split bands.

438 1927-D MINT STATE (63) The bands are about forty percent split. Lustrous and untoned. 1980 ANA Sale lot #1885. (see color photo)

439 1927-D MINT STATE (65) Full split bands. Exceptionally lustrous. (see color photo)

440 1927-D MINT STATE (65) Partial bands. Full, raised diagonals. (see color photo)

441 1928-S MINT STATE (65) In complete brilliance.

442 1929 MINT STATE (63)

443 1929-D MINT STATE (65)

444 1929-D MINT STATE (65)

445 1929-D MINT STATE (65) Full split bands.

446 1929-D MINT STATE (65) Full split bands.

447 1929-D MINT STATE (67) Superb! Full split bands. Fantastic toning. (see color photo)

448 1929-S MINT STATE (63)

449 1929-S MINT STATE (65) Full split bands.

450 1930 MINT STATE (65) Full split bands.

451 1930-S MINT STATE (65) Full split bands. (see color photo)

452 1931 MINT STATE (63)

453 1931 MINT STATE (65)

454 1931 MINT STATE (65)

455 1931-D MINT STATE (63) Full split bands. Lightly toned.

456 1931-D MINT STATE (65)

457 1931-D MINT STATE (67) Superb! Full split bands. Immaculate surfaces.

458 1931-D MINT STATE (67) Superb! Full split bands. The consignor hand selected this gem from an original roll. (see color photo)

459 1934-D MINT STATE (60)

460 1934-D MINT STATE (65) Full split (though not rounded) bands.

461 1935-D MINT STATE (65) Full split bands.

463 1938-D MINT STATE (65)

464 1939-D MINT STATE (67) Full split bands.

465 1941 PROOF (65)

466 1941 PROOF (65)

467 1941 PROOF (65)

468 1942/1 VERY GOOD (8) Scattered obverse nicks and digs. Bold overdate.

469 1942/1 VERY FINE (20)

470 1942/1 EXTREMELY FINE (45) A sharp, problem free example of this understandably popular overdate.

471 1942/1-D FINE (15) The doubled tail of the "4" and the trace of a "1" beneath the "2" of the date are visible. However, please note that all 1942/1-D overdates are faint, especially in circulated grades. Strength of the overdate will not be a valid reason for returning this lot.

472 1942/1-D MINT STATE (67) "Superb! The finest example of this rare branch mint overdate we've ever offered for auction sale. The diagnostic characteristics - the doubled "4", the trace of the "1" beneath the "2" and the die crack that travels vertically across Liberty - are all clear. The bands are full and split. An essential addition to a gem collection." This fantastic piece sold as lot #1893 in our 1980 ANA Auction at $3,800. The market has changed since then, but the rarity and desirability of this piece have not. We expect that it will take a mid four figure bid to capture this treasure. (see color photo)

## TWENTY CENT PIECES

473 1875 PROOF (60) Deep grey toning on both sides.

474 1875 PROOF (60) Dozens of faint hairlines. Still attractive in overall appearance. (see color photo)

475 1875 PROOF (67) Lot #525 from our University Park Sale as "Deep mirror surfaces with cameo-like devices. Original iridescent colors further enhance this lovely rare type issue. Worthy of a premium bid." Price realized - $5,600. (see color photo)

476 1875-S ALMOST UNCIRCULATED (50) A nice type coin.

477 1875-S ALMOST UNCIRCULATED (50) Cleaned.

478 1875-S ALMOST UNCIRCULATED (55) Lustrous.

479 1875-S MINT STATE (65) Formerly lot #438 from our March '80 Matthews Sale as "Well struck with nice mint brilliance. A splendid type coin." Price realized - $4,400. (see color photo)

480 1875-S MINT STATE (65) A phenomenal coin due to its unusual sharpness. The eagle's right wing is intricately detailed throughout, whereas most mint state specimens are very weak at that point. Every knuckle of both talons is distinct. The luster is vibrant and the surfaces leave little to be desired. Worth a substantial premium. (see color photo)

481 1875-CC MINT STATE (63) Beautifully toned. Typical, or a bit better, strike. Excellent surfaces. (see color photo)

482 1876 EXTREMELY FINE (45) Popular low mintage issue.

483 1877 PROOF (63) Cameo contrast between fields and devices. A few insignificant surface marks. (see color photo)

486 1818 EXTREMELY FINE/ALMOST UNCIRCULATED (48) Early type coins with no distracting problems and a little honest wear capture the essence of numismatics moreso than any other category of U.S. coins. This ideal example will surely generate much interest.

496 1861 MINT STATE (67) Superb! Unexcellable luster, strike and surfaces. Untoned, yet never cleaned or dipped. For the connoisseur. (see color photo)

556 1919 MINT STATE (65) Full head. This year is the pinnacle of production for this beatiful series. Satiny surfaces, broad, raised rims and excellent luster can be found on a relatively high percentage (but certainly not all) of coins of this date and mint. This particular specimen is exemplary of that quality. (see color photo)

695 1919 ALMOST UNCIRCULATED (50) Streaked with light brown tarnish.

696 1919 MINT STATE (63) A lustrous and laudable example of this key issue. Very scarce in mint state. (see color photo)

697 1919-D MINT STATE (65) "Unbroken luster upon satiny surfaces. Very challenging to locate in this condition. Not fully struck, but we have never seen or heard of one that is." That description where this piece sold as lot #2459 in the 1980 ANA Sale. (see color photo)

698 1919-S MINT STATE (65) "One of the rarest members of the series, ranking as high as second on many expert's lists (behind the 1921-S). When located at all, mint state coins of this issue are almost always weakly struck. This exciting example is an obvious exception to that rule, as the head and hand are full, and the skirt lines are virtually complete. What this important piece brings is up to the bidders, but no amount of money would guarantee the delivery of a finer specimen." That description where this coin sold as lot #2461 in the 1980 ANA Sale for $8,500. In perpetual demand. (see color photo)

699 1920 MINT STATE (60) Slight friction.

700 1920 MINT STATE (65) An unqualified gem. (see color photo)

701 1920-D MINT STATE (65) Usual softness in the centers. The luster is radiant and the surfaces unspoiled. Underrated in this supreme condition. (see color photo)

## EARLY DOLLARS

746 1795 Flowing Hair GOOD (4) Battered rims.

747 1795 Flowing Hair VERY GOOD (10) Neatly plugged at 12 o'clock. A faint initial in the right obverse field.

748 1795 Flowing Hair FINE (12) An ideal type coin.

749 1795 Flowing Hair FINE (15) Style of 1794. A few rim dents.

750 1795 Flowing Hair EXTREMELY FINE (40) A noble coin that has miraculously escaped impairment over the decades. A cluster of faint adjustment marks amid Liberty's hair, and a few near the lower right rim. The collector who wins this numismatic trophy should feel fortunate indeed. (see color photo)

751 1795 Flowing Hair EXTREMELY FINE (40) Only briefly circulated. Not quite as desirable as the preceding due to some slight planchet imperfections, as made. Still a bold and pleasing example. (see color photo)

752 1795 Flowing Hair ALMOST UNCIRCULATED (53) Formerly lot #552 from our July 1979 Herrman Sale wherein it was described as "Sharp, lustrous and pleasing. A few minor adjustment marks on the reverse; none on the obverse. Well centered. A rare and highly desirable type coin." The coin brought $5,500 in active bidding. With the increasing demand for high grade, problem free bust coinage such as this piece, we would expect a bid of approximately triple the previous sale price for this coin. (see color photo)

753 1795 Draped Bust VERY FINE (20) One reverse rim dent.

754 1795 Draped Bust VERY FINE (20) Instantly pleasing and free of problems.

755 1797 Stars 10x6 VERY GOOD (10) It is unusual for an early dollar of this grade to be so free of damage or abrasion.

756 1798 Heraldic Eagle FINE (12) Significant adjustment marks on the obverse.

757 1798 Heraldic Eagle VERY FINE (20) Abnormal russet and turquoise toning.

758 1798 Heraldic Eagle VERY FINE (30) Sharp and attractive. Lightly buffed in the right obverse field, and a small dig to the right of the eagle's tail.

759 1799 VERY GOOD (8) Slightly buckled dies have resulted in a slick area on the central portion of the reverse.

760 1799 VERY FINE (30) A scratch in Liberty's hair, and several small reverse surface cuts.

761 1799 VERY FINE (30) Darkly toned.

762 1800 FINE (15)

## LIBERTY SEATED DOLLARS

768 1856 EXTREMELY FINE (45) A scarce issue in pleasing, problem free appearance.

769 1859 PROOF (60) Unfortunately, this piece has been artificially toned, probably in an attempt to hide hairlines. There is a scratch in the obverse field from the rim, above the third star to the arm of Ms. Liberty. Still, a presentable example of this scarce date with fewer than one hundred survivors known.

770 1859-S FINE (15) Better than fine by degree of wear, but the surfaces are noticeably abraded. Very scarce.

771 1860-O ALMOST UNCIRCULATED (55)

772 1860-O ALMOST UNCIRCULATED (55) Semiprooflike.

773 1860-O MINT STATE (63) Less bagmarked than usual.

774 1867 EXTREMELY FINE/ALMOST UNCIRCULATED (48) Slide marks on Liberty's legs.

775 1871 PROOF (58) Unlike most slightly circulated proof coins, this example presents an eyecatching appearance.

776 1871 PROOF (58) Cleaned and artificially toned.

777 1872 EXTREMELY FINE (45)

778 1872-S VERY FINE (20) Scarce.

779 1873 PROOF (65) Formerly lot #1050 from our December 1980 Moore Sale as "Vivid cameo contrast is further amplified by warm russet toning about the peripheries. Immediately attractive." The coin brought $5,250 then; worth that or more today. (see color photo)

1899 $1 MS (65)

906 1889-CC VERY GOOD (8) A few rim bumps.

907 1889-CC ALMOST UNCIRCULATED (50) A problem free, uncleaned example. Sure to attract many fair bids.

At least equal to the few toned, superb examples that have sold in the $20,000 - $30,000 range over the last four years. Worthy of consideration at a level approaching five figures. (see color photo)

985 1896-S MINT STATE (63) Fully struck. Prooflike obverse. (see color photo)

## BICENTENNIAL GOLD MEDALS

1379 Seven Bicentennial Medals including: 1. A three inch silver piece - mintage unknown; 2. A one and a half inch silver piece - mintage unknown; 3. A one and a half inch bronze medal - also unknown mintage; 4. Another one and a half inch bronze mdeal, this one gold plated; 5. A .906 inch gold medal weighing .37 ounces (mintage 29,468); 6. A one and five sixteenths inch gold medal weighing 1.16 ounces (with a mintage of 5,396) and lastly; 7. A huge three inch gold medal. This beautiful piece is the first commemorative gold medal in the history of the United States to be specifically authorized by Congress for sale to the public. Only 423 pieces were struck, the designer being chief engraver Frank Gasparro. This medal contains 13.18 troy ounces of .900 fine gold. The last specimen to sell at public auction that we are aware of was lot #1666 in Kagin's Gena Sale of September this year. The piece brought $6,250. Prior to that, one sold in a Kagin's sale of October 1979 for $8,000. These prices were for the three inch gold medal only. This is a beautiful and valuable set which will no doubt receive a great deal of attention. (Total: 7 pieces)

1402 1880 MINT STATE (65) A stunning, cameo prooflike gem. For the connoisseur. (see color photo)

1403 1886 MINT STATE (63) (see color photo)

1404 1887 MINT STATE (63) ANACS #E-1217-K. Although graded 65/65 by ANACS, we grade this coin MS 63 because of a planchet streak below Ms. Liberty and a few very light marks in the field. A very desirable specimen nonetheless. (see color photo)

1405 1887 MINT STATE (63) A few tiny rim nicks. (see color photo)

1406 1889 MINT STATE (65) Beautiful color, surfaces and luster. Far above the norm for type three One Dollar Gold pieces. (see color photo)

1418 1900 MINT STATE (63)

1419 1900 PROOF (65) A splendid piece of proof gold enhanced by light, opaque toning. 1477 1884 MINT STATE (65) Outstanding in every respect. Type collectors should not hurriedly decide to not bid on this exceptional coin, assuming that its better date status will escalate the price out of their reach. Often, a truly scarce issue can be purchased for a type coin price, thus providing reassuring potential. (see color photo)

1478 1888 ALMOST UNCIRCULATED (55) (see color photo)

## DOUBLE EAGLES

1560 1854-O EXTREMELY FINE (45) A monumental rarity revered by expert and novice alike. Formerly lot 934 of Auction '79, described adeptly by Stacks as:

"Fully Extremely Fine, however, its overall superb condition gives the appearance of even a higher grade. A simply splendid coin, sharply struck, in deep yellow gold with light coppery toning. Prooflike in the devices. The surfaces and edges are remarkable for a gold coin of this size. In our opinion this certainly must rank as 'one of the finest specimens extant.'

This is one of the rarest double eagles struck for circulation; the quantity struck (3,250) has absolutely no bearing on its true rarity. As brought out in our June catalogue (where we sold a Very Fine specimen but with the overall excellent features of this coin), we could only locate 6-7 records of sale at public auction in all conditions, nationwide for a period of 10 years. As a further indicator of its rarity, the 1870'CC' has triple the appearances of this date. Without question, this is one of the most important coins of this sale."

Price realized: $45,000. It will be interesting to see what price today's market will bear; a similar amount may be realized. (see color photo)

1561 1861 MINT STATE (65) Rare no motto type, though not as scarce as pre-1866 Eagles and Half Eagles. Of course, they were once available to collectors as well...

1569 1884-S MINT STATE (65) (see color photo)

1570 1888-S Filled Die EXTREMELY FINE (40) Major gold coin errors are very rare. This example, struck from radically filled dies, falls into that category. Most of the stars and letters were obliterated at the time of striking, and pinpointing the date requires some supposition.

1571 1889 ALMOST UNCIRCULATED (55) Low mintage.

1572 1893 ALMOST UNCIRCULATED (58)

1573 1893-CC MINT STATE (65) A delicately toned, completely original example of the last Carson City Double Eagle. Well struck and extremely attractive. (see color photo)

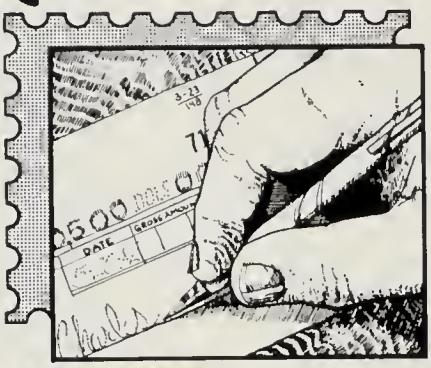
# What Do Consignors Expect From An Auction Company?

# highest possible prices



At Steve Ivy Philatelic Auctions, Inc., you get the highest possible prices for your stamps. Every time. How? Because everything we do adds up to top prices for the stamps consigned to our auctions. Especially at auctions such as the one we're having March 5-6 in Dallas where literally hundreds of bidders will vie for stamps.

Whether your stamps are worth $5,000 or $500,000 you'll benefit from our auctions in these numbered ways:

## More potential stamp bidders.

Our auctions are among the most highly publicized in the industry which means that your stamps are exposed to more potential bidders. Few rare stamp auctions receive the bidder participation that ours do. We invite you to compare the average number of bidders participating at our last two auctions — more than 160 floor and more than 700 mail bidders — with other auctions.

## We show your stamps at their best.

Our auction catalog is unequalled in the industry. With more photographs — all in full color — and more complete, accurate descriptions, our catalogs let bidders know when the color on your stamps is particularly vivid or when the centering is unusually fine.

The better your stamps look, the better they sell.

## You get more money for your stamps.

We work with you to establish an acceptable seller's commission rate on the materials you consign to us. Our standard commission rate is 10 percent, and on larger, more valuable consignments we will offer an ever better rate. You won't find a better rate among any of the major auction houses.

## Take advantage of trends.

Our staff members are professional philatelists who keep abreast of the market. Whatever your philatelic property, we know how to handle it. Our staff members are your personal philatelic advisors, and will help you take advantage of current market trends. Knowing "what" to sell and "when" to sell can make a tremendous difference in the prices you get for your stamps, and our staff members can provide you with that information.

## Your stamps will receive the highest prices possible.

Once you decide to consign your stamps to our auction, you can feel confident that they will receive their full market value because our services lessen the chances of surprise. Upon request, we will pre-describe the more important items in your consignment so that you can be assured they will be accurately described in our catalog. In addition, upon request, we will provide an accurate estimate of prices your stamps will bring.

## You get your money when you need it.

We offer generous cash advances that provide you with your money when you need it. As soon as you decide to consign your stamps, we can offer you a cash advance of up to 50 percent of the estimated value of your consignment.

Plus, you receive final settlement faster. When we say we will pay you on the 45th day of the sale, we mean it. We can do this because we are associated with one of the most financially stable collectibles firms in the nation.

## You get results — immediately.

Within hours of our auction, you know what your stamps brought. Simply call our office, toll free at 1-800-527-9250, the day after the sale to get results. Three days after the sale, we will send you written confirmation of your prices realized.

## Don't hesitate!

You'll find that consigning stamps to our auctions isn't just profitable. It's easy.

Simply send us your stamps by Registered Priority Mail, making sure they are securely wrapped and packaged with an itemized inventory. They're insured for their full value from the time we receive them at our offices until you receive your money.

Or, if your collection warrants, we will fly to your destination for a personal review and appraisal.

**We are now accepting consignments for our upcoming March 5-6 sale. Consignment deadline is January 4. For more information, call our president, Charles Shreve, toll free at 1-800-527-9250. Our send in the coupon below:**
